

CES TS

simply the best EPOS software

The Danes (Direct And Network Edi System) module will enable the CES software to truly communicate with other CES software worldwide, as well as transfer information to and from a head office or regional offices. In addition the Danes module allows the sending and confirmation of orders to any supplier with automatic invoice printing and notification of an order being dispatched and the date it is due.

The integration of Danes and CES is seamless so the user does not have to manually do anything.

Danes Feature List

- Integrated to CES Software.
- Unlimited number of partners.
- Unlimited number of suppliers.
- Head Office can send and receive documents with all or selected retailers.
- Fully automated tasks such as sales figures can be sent by time and or date.
- Extremely fast document transfer.
- Receive notification of orders being received, shipped, delivery dates and prices.
- Update information and transmit to all partners instantly.
- Electronic Data Interchange
- Transfer orders to Head Office for processing.
- Can link with partners' world wide.
